

Say Hello to Universal Fast Charging

hionev.com

AS EV ADOPTION RAMPES UP

Gain New Happy Customers.
Keep Existing Customers Happy.

EV sales are on pace to break one million in the US this year.¹

Experts predict that 26.4 million electric vehicles will be on U.S. roads in 2030.²

Tesla's Model Y was America's best-selling passenger car in the 1st Quarter of 2023.³

HiON Charge locations average 46 to 50 charging sessions per week.

The estimated revenue opportunity is approximately \$1 per minute of charge time.

Fast Food – Meet Fast Chargers

HiON Installs and Maintains Level 3 DC Fast Chargers at Quick Service Restaurants

HiON EV provides QSRs with charging station implementation and management that requires little to no capital investment from the parking lot owner, in addition to hands-off operation and maintenance in perpetuity.

HiON Provides

- Site evaluation and charging station implementation planning.
- Rebate and incentive management.
- Electrical system upgrades.
- Permits, construction & commissioning.
- Ongoing station maintenance, repairs and technology updates.

As More People Switch to Electric Vehicles, Charging Availability will be a Factor in Deciding Where to Eat and Where to Shop – Will You Be Ready?

Your customers want their dining experience to be both tasty and fast - that's why, for QSR's, DC fast chargers are the way to go. But DC fast chargers can cost thousands more than standard Level 2 chargers and often require electrical upgrades.

All you need to do is provide the parking spots, and we'll take care of the rest!

Get Your Parking Lot EV Ready with HiON

- Adding reliable EV charging to your parking lot gives you an advantage over the competition.
- Partnering with HiON EV ensures your charging stations are regularly maintained and updated.
- If something breaks, you'll never have to worry about repairs, ordering parts, or securing qualified technicians. Our team takes care of it all.

If You Don't Have the Chargers, You May Not Get the Orders!

Partnering with HiON EV is a low-cost, high-profile way for your company to meet its ESG standards, while facilitating equitable access to EV charging for all.
