AS EV ADOPTION RAMPES UP

The Need for Reliable EV Charging is Only Going to Grow.

EV sales are on pace to break one million in the US this year.¹

Experts predict that 26.4 million electric vehicles will be on U.S. roads in 2030.²

Tesla's Model Y was America's best-selling passenger car in the 1st Quarter of 2023.

As the United States Goes Electric, Cities and Towns Must Update their Infrastructure to Meet the Mandates

HiON Partners with Government Agencies and Municipalities to Implement Reliable Fast Charging Solutions for Fleet Management and Parking Lots.

The need for EV charging infrastructure for government-owned fleets and for EV support for public-facing municipal parking lots is significant. To meet this obligation without the added expense and headache of maintaining, repairing and updating EV charging station technology, municipalities across the country are partnering with HiON.

HiON Provides

- Site evaluation and charging station implementation.
- Rebate and incentive management.
- Electrical system upgrades.
- Permits, construction & commissioning.
- Ongoing station maintenance, repairs and technology updates.

Are you ready to provide reliable charging at your government facilities?

Broken or vandalized equipment. Technology updates. System wide maintenance planning. You can invest time, money and energy developing the expertise – or you can partner with HiON.

- HiON has the experience, the expertise and a successful history building charging stations for government entities.
- We recently secured \$1.5 million dollars from the state of Massachusetts Department of Environmental Protection for the installation of publicly accessible charging stations.

Get your parking lot EV ready with HiON!

- Adding reliable EV charging to your parking lot gives you an advantage over your competition.
- Partnering with HiON ensures your charging stations are regularly maintained and updated.
- If something breaks, you'll never have to worry about repairs, ordering parts, or securing qualified technicians. Our team takes care of it all.

Are you ready to provide reliable charging at your government facilities?

Partnering with HiON is a low-cost way for you to provide your community with equitable access to EV charging.
